3 Summary of the Offer

3.1 The Offer

The Company is offering Eligible Shareholders the opportunity to participate in a non-renounceable pro-rata rights issue of New Shares on the basis of one (1) New Share for every four (4) Existing Shares held on the Record Date, being 5.00pm (Brisbane time) on Wednesday, 27 April, at an issue price of \$0.01 per New Share.

The number of New Shares to which you are entitled (**Entitlement**) is shown on the accompanying Entitlement and Acceptance Form.

Certain terms and abbreviations in this Offer Document are defined in the glossary of terms in section 8.

3.2 No Minimum Subscription

There is no minimum subscription for the Offer.

The full subscription in relation to this Offer is approximately \$1,617,031 (before the costs of the Offer).

3.3 Shortfall

The Company will allow Eligible Shareholders, in addition to applying for all of their Entitlements, to apply for such further number of New Shares out of any Shortfall (**Shortfall Shares**) which the Eligible Shareholder may specify in the Entitlement and Acceptance Form.

In the event that there is no Shortfall, the Application Monies relating to the Shortfall will be returned to the Eligible Shareholder as soon as practicable following the Closing Date without interest.

In the event that applications from Eligible Shareholders to participate in the Shortfall exceed the number of Shortfall Shares, those applications will be scaled back in the discretion of the directors.

In the event of a scaling back of applications to participate in the Shortfall as described in the preceding paragraph, Application Monies relating to Shortfall Shares applied for but not issued will be returned to Shareholders as soon as practicable following the Closing Date without interest.

No Shortfall Shares will be issued to any Eligible Shareholder over any third party if it results in an Eligible Shareholder increasing its shareholding to more than 20% of the Company's issued capital.

3.4 Directors discretion to place Shortfall Shares

Notwithstanding any Application received by the Company for Shortfall Shares from Eligible Shareholders, the Directors may at their complete and absolute discretion place the Shortfall Shares with any third party, at not less than the issue price. The Directors will attempt to place those Shortfall Shares within 3 months of the Closing Date as required by Exception 3 to ASX Listing Rule 7.1 and 7.1A, as set out in ASX Listing Rule 7.2.

The Rights Issue is not being underwritten.

3.5 Use of funds

The net proceeds of the Offer will be used by the Company to fund future exploration activities on the Company's projects and for future working capital. See section 5.2 for further details.

3.6 **Effect of the Offer on the Control of the Company**

The Company has lodged with ASX a notice in accordance with section 708AA of the Corporations Act which sets out, among other things, the effect of the Offer on the control of the Company. This Offer Document may be viewed on the websites of the Company and ASX.

If all Eligible Shareholders take up their Entitlements in full, the Offer will not diminish the percentage shareholding and voting power of each Eligible Shareholder (assuming no further issue of securities by the Company). If some Eligible Shareholders do not take up their Entitlement in full, then their percentage shareholding and voting power in the Company will be diluted.

The percentage shareholding and voting power of Ineligible Shareholders who are not eligible to participate in the Offer will also be diluted by New Shares issued under the Offer.

Although the issue of New Shares to substantial Shareholders under the Offer may increase the shareholding interests of those persons in the Company, these arrangements are not expected to have any material effect on the control of the Company.

The final percentage interests held by substantial shareholders of the Company is entirely dependent on the extent to which other shareholders take up their Entitlements. The Company expects that the potential effect of the issue of Shares under the Entitlement on the control of the Company will be minimal.

3.7 **Rights issue exception not available**

No nominee has been appointed for Ineligible Shareholders under section 615 of the Corporations Act and, as such, Eligible Shareholders will not be able to rely on the exception for rights issues in item 10 of section 611 of the Corporations Act. Accordingly, when an Eligible Shareholder applies for some or all of its Entitlement, it must have regard to the takeovers prohibition in section 606 of the Corporations Act (that is, the 20% voting power threshold). Eligible Shareholders who may be at risk of their voting power in the Company increasing beyond that allowed by the takeovers prohibition in section 606 of the Corporations Act as a result of the acceptance of the Offer should seek professional advice before completing and returning an Entitlement and Acceptance Form.

3.8 **Entitlement to participate in the Offer**

Eligible Shareholders who are on the Company's share register at 5.00pm (Brisbane time) on the Record Date are eligible to participate in the Offer.

An Entitlement and Acceptance Form setting out your Entitlement to New Shares accompanies this Offer Document.

Nominees and custodians who hold Shares as nominees or custodians will receive an Offer Document. Nominees and custodians should carefully consider the contents of the Offer Document and note in particular that:

- (a) no Offer Document is to be sent to any Ineligible Shareholder or any person that is in the United States for whom they are the nominee holder; and
- (b) no Entitlement and Acceptance Form is to be submitted or New Shares otherwise purchased on behalf of any Shareholder that is not an Eligible Shareholder or any person that is in the United States.

The Company is not required to determine whether or not any registered holder is acting as a nominee or the identity or residence of any beneficial owners of Shares. Where any holder is acting as a nominee for a foreign person, that holder, in dealing with its beneficiary, will need to assess whether indirect participation by the beneficiary of the Entitlement is compatible with applicable foreign laws. Eligible Shareholders who are nominees, trustees or custodians are therefore advised to seek independent advice as to how to proceed.

3.9 **Acceptances**

This Offer may be accepted in whole or in part prior to 5.00pm (Brisbane time) on the Closing Date subject to the rights of the Company to extend the Offer Period or close the Offer early.

If your acceptance of your Entitlement results in you holding a fraction of a New Share, the Entitlement will be rounded down to the nearest whole number.

Instructions for accepting your Entitlement are set out in section 4 and on the Entitlement and Acceptance Form which accompanies this Offer Document.

3.10 **Offer is non-renounceable**

The Offer is non-renounceable. This means that your Right to subscribe for New Shares under this Offer Document is not transferable and there will be no trading of Rights on the ASX. If you choose not to take up your Rights, you will receive no benefit and your shareholding in the Company will be diluted as a result.

3.11 **Allotment and Application Money**

New Shares will be issued only after all Application Money has been received and ASX has granted permission for the New Shares to be quoted. It is expected that New Shares will be issued no later than Wednesday, 25 May 2016 and normal trading of the New Shares on ASX is expected to commence trading on a normal settlement basis on Thursday, 26 May 2016.

All Application Money received before New Shares are issued will be held in a special purpose account. After Application Money is refunded (if required) and New Shares are issued to Applicants, the balance of funds in the account plus accrued interest will be received by the Company.

3.12 **Rights and Liabilities attaching to the New Shares**

The New Shares will rank equally in respect of dividends and in all other respects (e.g. voting, bonus issues) as Existing Shares.

3.13 **ASX Quotation**

Application for admission of the New Shares to official quotation on ASX will be made.

Subject to the approval being granted by ASX, it is expected that quotation and trading of New Shares issued under the Offer will commence on a normal settlement basis on Thursday, 26 May 2016. The fact that ASX may agree to grant official quotation on ASX of the New Shares is not to be taken in any way as an indication of the merits of the Company or the New Shares.

3.14 **Issue Outside Australia**

(a) This Offer Document does not and is not intended to constitute an offer in any place in which, or to any person to whom, it would not be lawful to make such an offer. The New Shares may not be offered or sold in any country outside Australia except to the extent permitted below.

The New Shares are not being offered or sold to the public within New Zealand other than to existing shareholders of the Company with registered addresses in New Zealand to whom the offer of New Shares is being made in reliance on the Securities Act (Overseas Companies) Exemption Notice 2002 (New Zealand). Members of the public in New Zealand who are not existing Shareholders on the Record Date are not entitled to apply for any Shares.

This document has not been registered, filed with or approved by any New Zealand regulatory authority under the Securities Act 1978 (New Zealand). This document is not an investment statement or prospectus under New Zealand law and is not required to, and may not, contain all the information

that an investment statement or prospectus under New Zealand law is required to contain.

(ii) **Hong Kong**

The New Shares may not be offered or sold by means of any document other than (i) in circumstances which do not constitute an offer to the public within the meaning of the Companies Ordinance (Cap.32, Laws of Hong Kong) (the “Companies Ordinance”), or (ii) to “professional investors” as defined in the Securities and Futures Ordinance (Cap.571, Laws of Hong Kong) (**SFO**) and any rules made thereunder, or (iii) in other circumstances which do not result in the document being a “prospectus” as defined in the Companies Ordinance, and no advertisement, invitation or document relating to the New Shares may be issued or may be in the possession of any person for the purposes of issue (in each case whether in Hong Kong or elsewhere), which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the laws of Hong Kong) other than with respect to the New Shares which are or are intended to be disposed of only to persons outside Hong Kong or only to “professional investors” as defined in the SFO and any rules made thereunder.

This document has not been, and will not be, registered as a prospectus under the Companies Ordinance, nor has it been authorized by the Securities and Futures Commission in Hong Kong pursuant to the SFO. No action has been taken in Hong Kong to authorise or register this document or to permit the distribution of this document or any documents issued in connection with it.

WARNING: The contents of this Offer Document have not been reviewed by any regulatory authority in Hong Kong. You are advised to exercise caution in relation to the Offer. If you are in any doubt about any of the contents of this document, you should obtain independent professional advice.

(iii) **PRC**

Under the Securities Law of PRC (the “Securities Law”), the New Shares may not be offered or sold to the public or more than 200 specified recipients, and no advertisement, public solicitation or other methods that may be deemed by the China Securities Regulatory Commission (**CSRC**) to constitute public offerings may be issued or undertaken in PRC (excluding, for the purposes of this section, Hong Kong Special Administrative Region, Macau Special Administrative Region and Taiwan, the **PRC**).

The New Shares may not be offered or sold to the public in the PRC other than to Eligible Shareholders of the Company with registered addresses in the PRC who acted and are acting in compliance with all applicable PRC laws and regulations relating to share subscription, the total number of which is not more than 200.

The New Shares may not be offered or sold through advertising, publicly soliciting or other methods that may be deemed by CSRC to constitute public offerings in the PRC. This Offer Document may not be sent, distributed or circulated in a way that may possibly make it constitute an offer to the public in the PRC.

- (b) The information in this Offer Document may not be delivered in the way that constitutes an offer of the New Shares, whether by way of a sale or subscription, in PRC (excluding, for the purposes of this paragraph, Hong Kong Special Administrative Region, Macau Special Administrative Region and Taiwan). This Offer Document has not been, and will not be, registered as a prospectus under the Securities Law, nor has it been authorized by CSRC pursuant to the Securities Law, and is not required to, and may not, contain all the information that an investment statement or prospectus under PRC laws and regulations is required to contain. You are advised to exercise caution in relation to this Offer Document. If you are in any doubt about any of the contents of this Offer Document, you should obtain independent professional advice.

(c) United States

This Offer Document has not been, nor will it be, lodged, filed or registered with any regulatory authority under the securities laws of any country other than Australia. In particular, the New Shares have not been and will not be, registered under the U.S. Securities Act and may not be offered, sold or delivered within the United States of America or to or for the account or benefit of any U.S. Person, except pursuant to applicable exceptions from registration. In addition, hedging transactions with respect to the New Shares may not be conducted unless in accordance with the U.S. Securities Act.

(d) Ineligible Shareholders

The Company is of the view that it is unreasonable to extend the Offer to Ineligible Shareholders, having regard to the small number of foreign Shareholders and the cost of complying with the legal requirements and requirements of the regulatory authorities, in the respective overseas jurisdictions. Accordingly, the Offer does not extend to any Shareholders that are Ineligible Shareholders. The Company reserves the right to treat as invalid any Application that appears to have been submitted by an Ineligible Shareholder.

(e) Nominees

Eligible Shareholders holding Shares on behalf of persons who are resident outside Australia, New Zealand, PRC and Hong Kong are responsible for ensuring that taking up any Entitlement under the Offer does not breach regulations in the relevant overseas jurisdiction. The lodgement of an Application will constitute a representation and warranty to the Company that there has been no breach of such regulations. Shareholders who are nominees are also advised to seek independent advice as to how they should proceed. Where the Offer has been dispatched to a Shareholder domiciled outside Australia, PRC and Hong Kong, the Offer Document is provided for information purposes only.

3.15 **CHESS**

The Company participates in the Clearing House Electronic Sub-register System (**CHESS**). ASX Settlement, a wholly owned subsidiary of ASX, operates CHESS in accordance with the ASX Listing Rules and the ASX Settlement Operating Rules.

Under CHESS, applicants will not receive a certificate but will receive a statement of their holding of New Shares.

If you are broker sponsored, ASX Settlement will send you a CHESS statement.

The CHESS statement will set out the number of New Shares issued under this Offer Document, provide details of your holder identification number and give the participation identification number of the sponsor.

If you are registered on the issuer sponsored sub register, your statement will be dispatched by the Company's share registrar and will contain the number of New Shares issued to you under the Offer and your security holder reference number.

A CHESS statement or issuer sponsored statement will routinely be sent to Shareholders at the end of any calendar month during which the balance of their shareholding changes. Shareholders may request a statement at any other time, however, a charge may be made for additional statements.

If you provide insufficient funds to meet the Application Monies due to take up all or part of your Entitlement, you may be taken by the Company to have applied for such lower number of shares as your cleared Application Monies will pay for, or your Application may be rejected. Any overpayment of more than your Entitlement multiplied by the issue price of A\$0.01 will be deemed an application for additional New Shares.

- (a) Payment by cheque or bank draft

Your completed Entitlement and Acceptance Form must be accompanied by a cheque or bank draft made payable to “ActivEX Limited” and crossed “Not Negotiable” for the appropriate Application Money in Australian dollars calculated at \$0.01 per New Share accepted, and received by Boardroom Pty Limited at the address set out below by no later than 5.00pm (Brisbane time) on the Closing Date.

Payment by BPAY® should be made in accordance with the instructions set out in the Entitlement and Acceptance Form using the Customer Reference Number shown on that Form and must be received by the Share Registry by no later than 5.00pm (Brisbane time) on the Closing Date. Applicants should be aware that their own financial institution may implement earlier cut-off times with regard to electronic payment. Applicants should therefore take this into consideration when making payment. It is the responsibility of the Applicant to ensure that funds submitted through BPAY® are received by this time.

The Customer Reference Number is used to identify your holding. If you have multiple holdings you will also have multiple Customer Reference Numbers. You must use the Customer Reference Number shown on each Entitlement and Acceptance Form to pay for each holding separately. If you pay by BPAY® and do not pay for your full Entitlement, your remaining Entitlements will lapse. Your completed BPAY® acceptance, once paid, cannot be withdrawn.

Any New Shares under the Rights Issue that are not applied for will form the Shortfall Shares.

- (b) How to apply for Shortfall Shares

If you have applied to take up all of your entitlement in full, you may also apply for Shortfall Shares under the Shortfall.

If you apply for Shortfall Shares and your application is successful (in whole or in part) your Shortfall Shares will be issued at the same time that other New Shares are issued under the Offer.

The Directors will have discretion as to how to allocate Shortfall Shares and may scale back applicants in the event that applications exceed the actual number of Shortfall Shares.

- (d) No guarantee of Shortfall Shares

Application for Shortfall Shares with moneys does not guarantee any allotment of any Shortfall Shares. All application moneys in relation to which Shortfall Shares are not allocated will be returned without interest.

It is your responsibility to ensure that you will not breach the takeovers provisions in the Corporations Act by applying for Shortfall Shares.

- (e) Directors discretion to place Shortfall Shares

Notwithstanding any application received by the Company for Shortfall Shares from Eligible Shareholders, the Directors may at their complete and absolute discretion place the Shortfall Shares with any third party. The Directors will attempt to place

those Shortfall Shares within 3 months of the Closing Date as required by Exception 3 of ASX Listing Rule 7.2.

4.4 **To allow your Entitlement to lapse**

If you are a Shareholder and do not wish to accept all (or part) of your Entitlement, you are not obliged to do anything. You will receive no benefit or New Shares.

If you wish to receive a benefit, you must take action to accept the whole or part of your Entitlement in accordance with the instructions above and on the back of the accompanying Entitlement and Acceptance Form, rather than allowing them to lapse.

The number of Existing Shares you hold as at the Record Date and the rights attached to those Existing Shares will not be affected if you choose not to accept any of your Entitlement.

4.5 **Entitlement and Acceptance Form is binding**

A completed and lodged Entitlement and Acceptance Form constitutes a binding offer to acquire New Shares on the terms and conditions set out in this Offer Document and, once lodged, cannot be withdrawn. If the Entitlement and Acceptance Form is not completed correctly, it may still be treated as a valid application for New Shares. The Directors' decision whether to treat an acceptance as valid and how to construe, amend or complete the Entitlement and Acceptance Form is final.

By completing and returning your Entitlement and Acceptance Form with the requisite Application Monies, you will be deemed to have represented that you are an Eligible Shareholder. In addition, you will also be deemed to have represented and warranted on behalf of yourself or each person on whose account you are acting that the law in your place of residence and/or where you have been given the Offer Document and Entitlement and Acceptance Form, does not prohibit you from being given the Offer Document and Entitlement and Acceptance Form and that you:

- (a) agree to be bound by the terms of the Offer;
- (b) declare that all details and statements in the Entitlement and Acceptance Form are complete and accurate;
- (c) declare that you are over 18 years of age and have full legal capacity and power to perform all your rights and obligations under the Entitlement and Acceptance Form;
- (d) authorise the Company and its respective officers or agents, to do anything on your behalf necessary for the New Shares to be issued to you, including to act on instructions of the Share Registry using the contact details set out in the Entitlement and Acceptance Form;
- (e) declare that you are the current registered holder of Shares and are resident in Australia, New Zealand, PRC or Hong Kong;
- (f) acknowledge that the information contained in, or accompanying, the Offer Document and Entitlement and Acceptance Form is not investment or financial product advice or a recommendation that New Shares are suitable for you given your investment objectives, financial situation or particular needs; and
- (g) acknowledge that the New Shares have not, and will not be, registered, qualified or otherwise permitted to be offered or sold to the public under the securities laws in any other jurisdictions outside Australia.

If you have any queries concerning your entitlement or allocation, please contact the Company's Share Registry on 1300 737 760 for callers within Australia and +61 2 9290 9600 for callers outside Australia or the Company between 9.00am and 5.00pm (Brisbane time) on business days by calling +61 7 3236 4188 or contact your stockbroker or professional adviser.

5 Company overview and effect of the Offer

5.1 Company overview

ActivEX Limited is a Brisbane based, Australian Securities Exchange listed company focusing on the acquisition, identification and delineation of quality mineral resource projects through active exploration.

The Company portfolio is extensive, with interests in 1 granted Mining Lease, 33 granted Exploration Permits for Minerals and 1 Prospecting Licence application, covering over 2,881 km² in Queensland and Western Australia.

These licence areas cover highly prospective terrain for copper and gold mineralisation in north and southeast Queensland and in the Cloncurry district of northwest Queensland. The Company also has an advanced potash project in Western Australia.

The Company completed maiden Inferred Mineral Resource estimates at the Coalstoun copper, Barambah gold-silver, and Florence Bore North and South copper deposits in early 2015. Targeted exploration activities, such as geological mapping, soil and rock chip sampling and drilling (RC and diamond core) were carried out on projects during 2015.

The Company's vision is to be a sustainable minerals exploration company which provides value to its shareholders via discovery, development and mining opportunities.

The Company recently commenced field activities for 2016 at the Gilberton and Ravenswood Gold Projects.

5.2 Purpose of the Offer and use of funds

The purpose of the Offer is to raise approximately \$1,617,031 (before costs of the Offer).

The funds raised from the Offer will be used as follows:

Use	Amount
Exploration follow-up at Gilberton Gold Project	\$450,000
Target generation and follow-up at Ravenswood Gold Project	\$375,000
Exploration activities on Company tenements	\$375,000
Working Capital and costs of the Offer	\$417,031
Total	\$1,617,031

The Directors are of the opinion that on completion of the Offer there will be sufficient working capital for the Company to meet its stated objectives.

5.3 Effect on Capital Structure

If the Offer is fully subscribed, the effect of the Offer on the capital structure of the Company will be as follows:

	Number
Shares currently on issue	646,812,672
Maximum number of New Shares to be issued under this Offer Document	161,703,168
Maximum total Shares on issue after completion of the Rights Issue	808,515,840

5.4 Effect of the Offer on Control

If all Eligible Shareholders take up their Entitlements in full (assuming no further issue of securities by the Company) the Offer will not diminish the percentage shareholding and voting power of each Eligible Shareholder. If some Eligible Shareholders do not take up their Entitlement in full, then their percentage shareholding and voting power in the Company will be diluted.

The percentage shareholding and voting power of Ineligible Shareholders will also be diluted by New Shares issued under the Offer.

The Company has lodged with ASX a notice in accordance with section 708AA of the Corporations Act which sets out, among other things, the effect of the Offer on the control of the Company. This notice may be viewed on the website of the Company and ASX.

No nominee has been appointed for Ineligible Shareholders under section 615 of the Corporations Act and, as such, Eligible Shareholders will not be able to rely on the exception for rights issues in item 10 of section 611 of the Corporations Act. Accordingly, when an Eligible Shareholder applies for some or all of its Entitlement, it must have regard to the takeovers prohibition in section 606 of the Corporations Act (that is, the 20% voting power threshold). Eligible Shareholders who may be at risk of their voting power in the Company increasing beyond that allowed by the takeovers prohibition in section 606 of the Corporations Act as a result of the acceptance of the Offer should seek professional advice before completing and returning an Entitlement and Acceptance Form.

6 Key risk factors

6.1 Overview

The New Shares offered under this Offer Document should be regarded as speculative due to the inherent risks associated with the Company's activities. Neither the Company nor the Directors warrant the future performance of the Company or any investment made pursuant to this Offer Document.

The Directors recommend that Shareholders and potential investors examine the contents of this document together with previous ASX disclosures and public documents of the Company, including its most recent audited financial statements, and rely on advice of their professional advisers before deciding whether or not to apply for New Shares pursuant to this document.

6.2 General risk factors

Fluctuations in the global economic conditions as well as general trends in the Australian and overseas markets may affect the trading price of the Company's Shares on the ASX. An investment in the Company involves general risks associated with any investment in Shares of companies that are listed on the ASX. The following summary of the general risk factors, which is not exhaustive, represents some of the major risk factors which potential investors need to be aware of.

(a) Fluctuations in the stock market

The price of securities listed on the ASX may rise or fall due to numerous factors which may affect the market performance of the Company including:

- (i) general economic conditions, including inflation rates and interest rates;
- (ii) changes in commodity prices including the price of copper or gold;
- (iii) variations in the local and global markets for listed Shares in general, or for mining stocks in particular;
- (iv) changes to government policy, legislation or regulation;

- (v) competition in the industries in which the Company and its subsidiaries operate; and
- (vi) general operational and business risks.

The Offer carries no guarantee in respect of profitability, dividends, return of capital or the price at which Shares trade on the ASX.

(b) Political Risk

A change in the governing political party at either a state or federal level may result in a change in government policy. If an opposing political party assumes power, its policy may be substantially different from that of the current government's and may modify the development or require the Company to renegotiate any of its projects. Further, the extent of the impact of a policy change on the Company's projects (if any) that may result from an election or change of government at this stage is unknown.

War or terrorist attacks anywhere in the world could result in a decline in economic conditions worldwide or in a particular region, which could produce an adverse effect on the business, financial condition and financial performance of the Company.

(c) Changes in regulatory environment

The introduction of new legislation or amendments to existing legislation, developments in common law, or the interpretation of legal requirements in any of the jurisdictions which govern the Company's operations or contractual obligations, could impact adversely on the assets, operations and, ultimately the financial performance of the Company. In addition, there is a risk that legal action may be taken against the Company in relation to its operations.

(d) Taxation

Future changes to tax law or changes to the way in which taxation laws are interpreted in the various jurisdictions in which the Company operates or makes underlying investments may correspondingly impact the taxation liability of the Company or the value of its assets.

There are tax implications arising from purchasing and selling Shares, receiving distributions from the Company, and participation in any on-market Share buy-backs. Accordingly, investors should seek their own independent taxation advice before applying for New Shares under the Offer.

(e) Insurance risks

Although insurance is maintained by the Company, no assurance can be given that adequate insurance will continue to be available to the Company in the future on commercially acceptable terms.

In addition, the Company may incur liabilities to third parties (in excess of any insurance cover or statutory reserves) arising from negative environmental impacts or other damages or injury. There is a risk of an occurrence of a significant event leading to losses that are not fully covered by insurance.

(f) Other external factors:

Other external factors that may affect the value of the New Shares include (but are not limited to):

- (i) success or otherwise of litigation matters currently undertaken by the Company;
- (ii) changes in investor sentiment toward particular market sectors;
- (iii) changes in interest rates and the rate of inflation;

- (iv) the demand for, and supply of, capital;
- (v) changes in exchange rates;
- (vi) changes to accounting standards; and
- (vii) the nature of competition in the industries in which the Company operates.

6.3 Specific Risk factors

(a) Future Capital Requirements

The Company may require additional capital to fund further development of its existing or new projects. The Company's ability to raise sufficient further capital within an acceptable time frame and on terms acceptable to it will vary according to a number of factors including (without limitation) the prospects of new projects (if any), the results of exploration and subsequent feasibility studies, stock market and industry conditions, the ability to attract industry partners via farmout or sell down of the Company's assets and the price of relevant commodities.

(b) Exploration risks

The primary activities of the Company are exploration for, and the commercial development of, mineral ore bodies. There are many inherent risks associated with the business of minerals exploration. Notwithstanding the experience, knowledge and careful evaluation the Company brings to each of its exploration projects, there is no assurance that recoverable mineral resources will be identified.

The Company's ability to pursue its planned exploration program, as contemplated in this Offer Document, may be affected by a range of external factors including:

- (i) ongoing support by its major shareholder;
- (ii) geological conditions;
- (iii) limitations on activities due to seasonal weather patterns;
- (iv) alterations to joint venture programs and budgets;
- (v) mechanical failure or unavailability of drilling equipment and other plant and equipment;
- (vi) industrial and environmental accidents, industrial disputes and other force majeure events;
- (vii) unexpected shortages or increases in the costs of consumables, spare parts, plant and equipment and labour;
- (viii) prevention of access to exploration areas by reason of political or civil unrest, outbreak of hostilities, inability to obtain regulatory or landowner consents or approvals, or native title issues; and
- (ix) risks of default or non-performance by third parties providing essential services.

(c) Development risks

The ultimate success and financial viability of the Company depends on the discovery and delineation of economically recoverable ore reserves, the design and construction of efficient mining and processing facilities, and competent operational and managerial performance. There is no assurance that exploration and development of the mineral interests held by the Company, or any other projects that may be acquired by the Company in the future, will result in the discovery of an economic deposit. Even if an apparently viable deposit is identified, there is no guarantee that it can be profitably exploited.

If the Company commences production, its operations may be curtailed or disrupted by a number of risks beyond its control such as environmental hazards, industrial accidents and disputes, technical failures, unusual or unexpected geological conditions, fires, explosions, adverse weather conditions and other accidents. The Company's operations may be adversely affected by higher than anticipated ore treatment costs, worse than anticipated metallurgical conditions, fluctuations in base and precious metal prices or lack of availability of smelter capacity.

Development of a commercial mining operation is also dependent on the Company's ability to obtain necessary titles, funding and governmental and other regulatory approvals.

(d) Changes in government policy

The Company's capacity to explore and mine, as well as industry profitability generally, can be affected by changes in government policy that are beyond the control of the Company. Changes in government regulations and policies may adversely affect the financial performance of the Company.

(e) Mineral market conditions

The Company's ability to benefit from any future mining operations will depend on market factors, including the market prices of commodities which are beyond the Company's control. Global markets for potash, copper, gold and other minerals are subject to many variables and the prices of these minerals can fluctuate markedly. Any significant and/or sustained fluctuation in exchange rates or commodity prices could have a materially adverse effect on the viability of a proposed mining operation.

(f) General economic conditions

Factors such as inflation, currency fluctuations, interest rates, supply and demand, industrial disruption, government policy and legislation, have an impact on operating costs, commodity prices, and the parameters in which the Company operates. Factors that are beyond the control of the Company include:

- (i) general economic conditions in Australia and, in particular, inflation rates, interest rates, exchange rates, commodity supply and demand factors;
- (ii) financial failure or default by a participant in any of the joint ventures or other contractual relationships to which the Company is, or may become, a party;
- (iii) insolvency or other managerial failure by any of the contractors used by the Company in its activities; and
- (iv) industrial and landholder disputes.

These as well as other conditions can affect the Company's operating costs and have the potential to affect the Company's potential future revenues and profitability and the price of its securities.

(g) Environmental risks

The Company's projects are, or may be, subject to various laws and regulations regarding environmental matters and the discharge of hazardous waste and materials. The Company may be required to comply from time to time with environmental management issues that arise from factors beyond its control. Should the Company proceed to development of one or more mines, it could be expected that such developments would have numerous environmental impacts that would require various statutory approvals to be put in place. There is no guarantee that such approvals would be granted. The Company intends to conduct its operations in an environmentally responsible manner and in accordance with relevant legislation. However, the Company is unable to predict the effect of future changes to environmental legislation or policy and the cost effect of such changes on its operations and financial position.

(h) Tenement title risks

Mineral licences are granted subject to various conditions including, but not limited to, work and expenditure conditions. Failure to comply with these conditions may expose the licences to forfeiture.

All of the licences in which the Company has an interest will be subject to application for renewal from time to time. The renewal of the term of each licence is subject to the applicable legislation in the relevant jurisdiction. If a licence is not renewed for any reason, the Company may suffer significant damage through loss of the opportunity to develop and discover any mineral resources on that licence.

(i) Native title

Native title in Australia is governed by the Native Title Act 1993 (Cth) (NTA) and by State legislation. The NTA provides a regime that enables persons claiming to hold native title to lodge a claim to that effect for determination. The NTA also provides for the determination of native title rights, their extinguishment, and for processes to deal with those rights in accordance with specific categories of acts that have occurred including “past acts” (before 1 January 1994), “intermediate period acts” (occurring between 1 January 1994 and 23 December 1996), and “future acts.” Under this regime, native title is extinguished by grants of private freehold title and exclusive possession tenures.

The effect of native title on a tenement held by the Company will depend on the nature of the tenement, the date of its grant or proposed grant, and the nature of the underlying land tenures.

The effect of the NTA and relevant state legislation is that existing and new tenements held by the Company may be affected by native title claims and procedures. The Company has not undertaken the historical, legal or anthropological research and investigations at the date of this Offer Document that would be required to form an opinion as to whether any existing or future claim for native title could be upheld over a particular parcel of land covered by a tenement. There is a potential risk that a determination could be made that native title exists in relation to land the subject of a tenement held by the Company that may affect the operation of the Company’s business and development activities. If it is determined that native title does exist or a native title claim has been registered, the Company may need to comply with procedures under the applicable native title legislation in order to carry out its operations or to be granted any additional rights required. Such procedures may take considerable time, involve the negotiation of significant agreements, may involve access rights, and require the payment of compensation to those persons holding or claiming native title in the land the subject of a tenement. The involvement in the administration and determination of native title issues may have a material adverse impact on the position of the Company in terms of cash flows, financial performance, business development, ability to pay dividends and the Share price.

(j) Compulsory work obligations

Each of the Company’s tenements is subject to expenditure and work commitments, which must be met in order to keep such tenement in good standing. These commitments may be varied on application by the tenement holder but any such variation is at the sole discretion of the Minister administering the relevant State mining legislation. If no variation is approved, and there is a failure to meet the commitments, this could lead to forfeiture of the tenement.

(k) Funding requirements

The Company will have no operating revenue in the foreseeable future and must continue to fund its activities through additional equity capital, sourcing project funding through joint ventures or by asset sales. Any additional equity financing may dilute existing shareholders’ interests in the Company.

Once the Company's current cash reserves, and those raised under the Offer, are exhausted, the Company's capacity to operate will be dependent upon:

- (i) the success of the Company's efforts to attract joint venture partners who will undertake or share all or part of the exploration expenditure; and
- (ii) the successful raising of additional equity funds.

Until such time as the Company has a commercially viable project, debt financing is not likely to be available to support the Company's activities.

- (l) Gold price fluctuations

Gold prices fluctuate in response to the economic climate and market forces of supply and demand. The fluctuations in prices may adversely impact on the Company's exploration, planned production and future development, consequently affecting the value of the Shares.
